## About Us

The idea of smart baking involves use of technology advanced baking equipment. Supporting small to large scale baking companies in India, in prompt, delicious and quality-rich baking of breads, cookies, cakes, bagels, muffins and more is Multi-Tek Engineers.

We have 21 years of experience in designing and developing a variety of baking machines like Cookies Making Machine, Cake Making Machine, Rotary Rack Oven, Planetary And Spiral Mixer. We come up with different sizes and running capacities of baking machines to support all scales of companies in fine and fast baking. Our range of baking machines support in bulk baking of items and make food processing more productive.

Since our beginning, we are aiming to achieve huge success in this sphere by introducing world class baking machines of strong built, compact structure and high durability. It is through development of performance oriented machines that we have been able to gain customers appreciation as a quality-focused manufacturer.
